P&L Management

Active portfolio value currently under management

\$5,000,000

	Value
Interim Leadership 50-member platform org, zero delivery failures	50
Team Built	10 → 100
Cloud Assets Transformed	1,500 VMs
Applications Modernised	300+
CSAT Score	10 / 10
Release Success Rate	95%+
GenAI / AI-ML Adoption	5 Projects
Cloud & DevOps Certifications	14+

People Leadership & Org Building:	1:1s · Performance Reviews · Hiring · Promotions · Psychological Safety · Culture Building · Conflict Resolution
Presales & Solution Engineering:	Solution Design · HLD/LLD · RFP Response · Effort Estimation · CXO Advisory · Backup, Security & DR
Cloud Platforms & Architecture:	Multi-Cloud · Cloud-Native · Hybrid Cloud · Landing Zone Design · High Availability & DR Architecture
DevOps & CI/CD Engineering:	CI/CD Pipeline Design · GitOps · AIOps · DevSecOps · Release Automation · Build Automation · SDLC
Observability & SRE:	Site Reliability Engineering · APM · Traces · ELK · Incident Management · MTTR Reduction
IaC & Automation:	Policy as Code · ARM · Bicep · Infrastructure Automation · Shell Scripting
Containers & Orchestration:	Container Security · Cluster Scaling · Service Mesh · Istio · RBAC · EKS · AKS

2024–Now AHEAD Engineering Manager & Principal Solutions Architect	2021–2023 Rackspace Solutions Architect	2019–2021 AVL Principal DevOps	2018–2019 HCL Tech DevOps Engineer	2014–2018 Ericsson Cloud Systems Engineer
---	---	--------------------------------------	--	---

Vitamin EM Psychological Safety · Structured 1:1s · Hiring & Promotions · Team Growth · Performance Cycles · Conflict Resolution · Culture Building	100%
Vitamin GCC 10th employee → 700+ org · Team 10 → 100 · GCC Center of Excellence	100%
Vitamin AI AI/ML transformation · GenAI adoption · Production AI platforms · RAG · MLOps · Vector Databases	100%
Vitamin K Kubernetes CKA+CKS · Docker · Helm · Istio · ArgoCD	100%
Vitamin P Python · Bash · AI-driven tooling · Built migration tool (3 weeks → 10 min)	100%
Vitamin S Infrastructure Security · SAST/DAST · WAF · IAM · Zero-Trust · Policy as Code · DevSecOps	100%

* % Daily Value based on a GCC engineering org that needs someone to own architecture, lead teams, ship GenAI platforms in production, and keep customers at 10/10.

INGREDIENTS:
Platform Engineering · Site Reliability Engineering (SRE) · GCC Org Scaling · Cloud Migration · Application Modernisation · Audit & Compliance (SOC2 · PCI-DSS · HIPAA) · FinOps · Zero-Trust Security · LLM-powered automation · Blameless retrospectives · Structured growth plans.

CERTIFICATIONS:

AWS	Solutions Architect – Associate & Professional · DevOps Engineer – Professional · Security Specialty · AI Practitioner · ML Associate
Kubernetes	Certified Kubernetes Administrator (CKA) · Certified Kubernetes Security Specialist (CKS)
Azure	Azure Architect Professional
Other	Terraform Associate · Docker Certified Associate · RHCSA · ITIL v2 · Zerto Certified Associate
